## How do you protect yourself against tenant related risks?

By hiring a professional property manager who can give you access to REAL's Landlord Preferred Policies, and their Real House Policy.

With REAL's specialised insurance for Residential Investment Owners, landlords can now rent their property with confidence.

REAL offers three tiers of landlord cover as well as building insurance, enabling you to have a comprehensive insurance package to protect your asset and income. Policies start from **less than \$1 per day**.

With **Real Landlord Insurance**, you can help protect your financial future for your family, keep your property, grow your assets, and sleep well at night knowing that you and your investment are protected.

Call us today, we are here to help. You can also apply online [here](#).
